FOR IMMEDIATE RELEASE

Calaveras Blvd (SR 237) Closure for Falsework Erection

Milpitas – The California Department of Transportation today announced that Calaveras Boulevard/State Route 237 will be closed in both directions at the Interstate 680 undercrossing in order to erect falsework. Construction activities are scheduled from September 8 to 14 for three nights, from 10 p.m. to 5 a.m. Local traffic will be detoured to Hillview Drive and Park Victoria Drive.

The roadway closure is necessary for erection of the falsework to accommodate the Route 680 bridge widening at Calaveras Blvd. as part of the ongoing I-680 Southbound Express Lane project. For questions regarding the project, please visit the Caltrans website at www.dot.ca.gov/dist4/680hov/
